

THANK YOU for Purchasing the AWWPA Book of Standards in 2024!

The AWWPA Executive Committee would like to thank those who continue to support the objectives and purposes of AWWPA by purchasing or subscribing to the complete Book of Standards directly from AWWPA. The AWWPA Standards are the culmination of the expertise and consensus of the AWWPA Technical Committees. They guide and govern the wood protection industry, as well as provide credible, valuable information to specifiers and end-users of treated wood. Revenue from Book of Standards sales is a major source of funding to the Association for its standards development work. In order to ensure continued conformance to the standards, every treating plant, laboratory, specifier, and inspector should have a current edition on-hand. Once again, AWWPA is grateful for your purchase of and contributions to the AWWPA Book of Standards. We would also like to thank those who have purchased the Book of Standards and individual AWWPA standards through other channels.

The following are those that have supported the Association with their direct purchases in 2024:
