Credit Card # _____ Expiration Date _____

Name of Cardholder _____ Cardholder Signature _____

Billing Address _____

City, State/Prov, ZIP/PC, and Country _____

Please complete this form, enclose method of payment, and send by mail or facsimile to:

Benefits

Professionals in the academic, building supply, construction, electrical, government, marine, and railroad industries all benefit from membership in AWWPA. Members have the opportunity to become actively involved in the development of treatment and inspection standards. The result is longer service life for your organization's wood products. Members also establish valuable peer contacts in the industry while sharing interests and problems in the wood preserving industry.

Meetings

The AWWPA organizes annual meetings for the general membership each Spring, and semi-annual technical committee meetings in the Spring and Fall. AWWPA members are entitled to reduced registration fees for each AWWPA meeting.

Publications

AWWPA publishes its Book of Standards as well as its annual Proceedings which cover the Annual Meeting. Members receive complimentary access to the entire collection of the Proceedings through the member portal of the AWWPA website. The AWWPA Book of Standards and other AWWPA publications are available to members at substantially reduced prices.

About AWWPA Dues

Regular Membership dues are \$310 for 2026. New members must pay a \$10 application fee, but receive a new member discount in the first year. Contributions or gifts to the American Wood Protection Association are not tax deductible as charitable contributions. However, they may be tax deductible as ordinary and necessary business expenses. None of the dues received by AWWPA are used for lobbying or other political activities. The AWWPA is organized as a business league under section 501(c)(6) of the U.S. Internal Revenue Code. Please consult your tax advisor for more information.

AWWPA standards and programs are developed through its Technical Committees as follows:

PROTECTANT/PRESERVATIVE TECHNICAL COMMITTEES:

- P-1 General Administrative
- P-3 Oilborne and Creosote-based Preservative Systems
- P-4 Waterborne Preservative Systems
- P-5 Methods for Chemical Analysis of Preservatives
- P-6 Methods for Evaluation of Wood Preservatives
- P-9 Non-Biocidal Wood Protection

TREATMENTS TECHNICAL COMMITTEES

- T-1 General Administrative
- T-2 Lumber and Timbers
- T-3 Piles and Ties
- T-4 Poles and Posts
- T-7 Quality Control and Inspection
- T-8 Composites

SPECIAL COMMITTEES:

- S-2 Wood Protection Research
- S-3 Treated Wood Use, Handling, and Disposal/Recycle
- S-8 Plant Operations

AMERICAN WOOD PROTECTION ASSOCIATION

Membership Application

The American Wood Protection Association is an international, nonprofit, technical society founded in 1904 to provide a common forum for the exchange of information for all segments of the industry. The AWWPA promotes technical interchange between industry, research, and users of treated wood. This interchange is essential to the survival and prosperity of the wood preserving industry and deserves the support of all individuals with interest in this field.

AWWPA is the principal body responsible for writing the standards governing the wood preserving industry in the United States and abroad. These standards are important because they provide specifications and processes which improve the performance of treated wood products. AWWPA's standards are recognized and used by most, if not all, users of treated wood including the building, electrical, marine, railroad, and road construction industries as well as federal, state, and local governments.
